

MARK ANTONIO PIGOME

FULL-STACK DEVELOPER

+62 852 1812 5850

mpigome44@gmail.com

Papua, Indonesia

ABOUT ME

Versatile Full-Stack Developer and self-taught coder with a non-linear path to tech. After 15 years in the USA, I returned to Indonesia, merging logistics experience with technical expertise. I specialize in engineering efficiency through automated workflows. Notably, I developed Reefer Guru—an AI diagnostic system to assist PT. Panjasa-Intradin technicians with translating English manuals. Bilingual and detail-oriented, I excel at building practical, robust infrastructure within multicultural and high-stakes leadership environments.

EDUCATION

COMPUTER SCIENCE | 2016 - 2018

ARIZONA STATE UNIVERSITY

GED | 2012 - 2016

ST. MARY's CATHOLIC HIGH SCHOOL

WORK EXPERIENCES

ADMINISTRATION | APRIL 2024 – Present

PT. PANJASA-INTRADIN

Developed **Reefer Guru** AI app to assist technicians troubleshoot. Manage cold chain logistics for over 300+ reefer containers supporting food distribution across Papua. Analyze LYNX Fleet data for issues, coordinate repairs, oversee inventory, and compile reports. (reefer-guru.vercel.app) (pirs.co.id)

MARKETING & ADMINISTRATION | JULY 2023 – APRIL 2024

PT. PENGEMBANGAN JAYA PAPUA

Developed PJP's website (pjp.co.id), managing server and cPanel. Handled social media marketing, brand development, and content creation/authoring for website and blogs. Designed flyers/posters using Photoshop and served as event/holiday photographer.

A/C INSTALLATION (NOVEMBER 2021 – AUGUST 2022)

ACU Heating & Cooling

Installed HVAC systems at ACU Heating & Cooling, managing unit installations, intricate wiring, copper bending/soldering, and lifting heavy equipment (100+lbs), while promoting eco-friendly practices through metal scrap recycling.

STUDENT WORKER AT ASU BIO DESIGN LABORATORY | SEPTEMBER 2019 – MAY 2021

ARIZONA STATE UNIVERSITY BIO DESIGN LABORATORY

Managed facility logistics at ASU Bio Design Laboratory, operating autoclaves and -80°C/-20°C freezers, precisely transporting equipment, and coordinating placements for efficient operations. Monitor all 5 floors of the ASU Bio Design laboratory buildings and make sure all inventory was there.
